

Steadyco[®]
pre-school table training

Innovative **NEW** Tableware

For pre-school children

*Developed by
nutritionists to
help prevent
obesity in children*

Steadyco®

Steadyco is a young dynamic company created to provide parents with a range of exciting and innovative infant feeding products.

Our award winning **Steadycup®**, is designed to provide children with a mouth friendly alternative to spouted beakers. Its unique design and style has generated great levels of interest from healthcare professionals and retailers alike.

The new **Let's EAT Table Tools Collection** is designed for pre-school children and has been developed with nutritionists to help prevent obesity by producing products that are the correct size for the food portions of pre-school children.

For recipes, snack ideas and portion guides visit to www.steadyco.com.au

Ever wonder whether you are **feeding your pre-schooler the right amount?**

Do you wish you could find cutlery in between **baby spoons and adult sized?**

The answer is

Steadyco!

Why choose Steadyco?

right size

Developed with nutritionists, the Plates, Bowl and Cups are correctly sized to help parents measure the ideal food portions for pre-school children.

less spills

The unique 'steady' shape helps reduce spills and the easy-grip rims of the Bowl and Plate help with co-ordination.

real cutlery

The Cutlery is designed to fit little hands and mouths and allow children to mimic adults so they learn to eat on their own. Unlike most children's cutlery - they work!

easy clean

'Drip Dry' drain holes make cleaning easy, and all products are dishwasher safe.

grown up

Eating with grown up tableware helps your child build self confidence and social skills.

non-toxic

Steadyco's products are made of non-toxic recyclable plastic that contains no phthalates or BPA and are microwave (except the Cutlery, which has metal ends) and freezer safe.

fun colours

The Steadyco range is available in five fun colours - yellow, pink, red, blue and white.

Stackable Steadycup®

The award winning 140ml Steadycup® was designed to provide an alternative to spouted beakers and to help wean children from bottles to grown up cups. Alongside its mouth friendly qualities, the wide base helps prevent spills and boosts confidence, while its small handle aims to increase dexterity and co-ordination.

Steadyco®

innovative tableware for pre-school children

Let's EAT Cutlery Set

The Cutlery Set is ergonomically designed to fit the hands and mouths of pre-school children. Hand orientated to give a correct and safe cutting position, its shape also matches the curves of the Bowl and Plate.

The three piece Cutlery Set is available in five colours and encourages confident grown-up eating and helps develop dexterity.

Let's EAT Cup and Lid

This handy stackable cup comes with a handy leak proof lid, which is great when transporting drinks or when you are out and about.

Developed with nutritionists to give children a healthy start, the Let's EAT 225ml Cup and Lid is the correct size for pre-school children.

Let's EAT Snack Pot and Lid

This great little snack pot comes with its very own leak proof travel lid so is ideal when you're out and about with your little one and you want to take a snack with you.

Developed with nutritionists to give children a healthy start, it's the correct size for pre-schoolers. Complete with nutrition tips and portion control suggestions on the pack.

Let's EAT Snack Plate

This small plate is perfect to serve snacks, sandwiches and toast, and comes with nutrition and portion control suggestions. It's available as a twin pack in five colours.

Let's EAT Bowl

This versatile bowl is designed with easy grip rim and 'steady' shape to promote self confidence in your little pre-schooler.

It's available as a Bowl and Spoon set.

Let's EAT Plate

The Let's EAT Plate has the same great features as the Let's EAT Snack Plate but is bigger, so it's perfect for use at meal times.

Available as a set with matching knife and fork.
